DETAILED ACTION

Allowable Subject Matter

1. Claim 1, 4-6, 8-12 allowed.

The following is an examiner's statement of reasons for allowance: prior art teaches frames as a unit of a transmission signal of nodes having data fields, an ID code field to indicate a priority code field, further indicating the priority order of transmission. Thus, the priority code aims at preventing collision of frames on the transmission path.

However, the present invention is directed to a transmission frame and a telecommunications device having transmissions frames of a short message with data of different format stored in at least two data fields. Thus, the prior art fails to teach first ID code that identifies the makeup of the short message provided in the first data field and wherein the first ID code includes an indication about the number of data fields and about the data formats in the data fields and the size of the data field that includes at least two data fields with one data field-specific ID code and the content of the corresponding data field.

Conclusion

The following patents are cited to further show the art with respect to transmission frames for transmitting messages.

US Pat. No. 5652783 to Keba et al.	Selectively encoding digital messages in a communication system
US Pat. No. 6173171 to Plush et al.	Generating billing data in a telecommunication system
US Pat. No. 6085072 to Komiya et al.	Telephone system and voice encoding/decoding method

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julio R Perez whose telephone number is (703) 305-8637. The examiner can normally be reached on 7:00 - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Emmanuel Moise can be reached on 703-306-0003. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
